104 PROJECT

As you may have noticed, things are really starting to happen next door to the library!

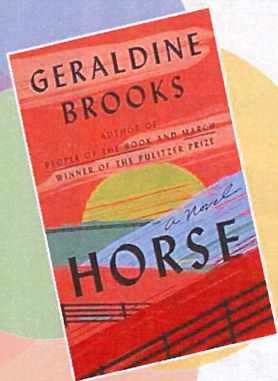

Concrete, well drilling and directional boring have been completed.. The well will feed the irrigation systems on both 104 and the library landscaping, along with providing water for the garden. Electrical service will also run through the underground line, allowing electricity on 104 without an extra meter.

Questions? Let's talk! Stop in to see Perri or Lisa for more information.

Watch and enjoy the progress!
